

List of Figures

Fig. No	Description	Page No
1.1	Features of AWS	1
1.2	AWS services for Data Engineering	2
2.1	Core AWS services used in Data Engineering	3
2.2	ETL process using AWS Glue and Lambda	4
3.1	Cloud service models	7
3.4	KMS	9
4.1	Elements of data	10
4.2	Ingestion services to variety-volume-velocity	10
4.3	Built-in data stores and analytics tool	11
4.4	Pipeline architecture	12
4.5	Stream processing pipeline	13
4.6	Securing the stream processing pipeline	14
4.7	Processing of big data	16
4.8	Processing data for Machine Learning	17
4.9	Analyzing and Visualizing	18
